

AUSTRALIA JAZZ/SIGHTSEEING TOUR

Aug. 25 - Sept. 7, 2009

**NATURAL GAS
JAZZ BAND**

NEWCASTLE JAZZ FEST. is regarded by jazz fans as one of the best jazz festivals in Australia - in part because it offers such a wide variety of jazz & blues styles. Nearby Hunter Valley is world renowned for its wine growing region. Visit Newcastle's Darby Street, Hamilton, and Convict Lumberyard and Stockade.

SYDNEY - Guided city tour including world famous opera house, Centrepont Tower, Bondi Beach, day trip to Blue Mountains including Katoomaba and Leura. Visit Taronga Zoo. Also NGJB jazz sessions with local groups.

BRISBANE - South Bank, River Cruise, Lone Pine, Koala Sanctuary, & more.

NOOSA JAZZ FEST. Noosa Heads is a small, wealthy coastal city known for its beautiful beaches and rocky headland - it is the tourist heart of the Noosa district. The festival is recognized as one of Australia's most popular jazz gatherings. Over 150 Australian and International artists produce an impressive three day festival with many open-air concerts and free gigs. Over 20 of Noosa's famous restaurants also provide a wide variety of jazz venues.

Come along with the Natural Gas Jazz Band to that wondrous land of Australia. Between jazz engagements, we'll sightsee through the fascinating countryside aboard a luxurious, air-conditioned touring coach.

Our itinerary includes a weekend jazz festival in Newcastle (just north of Sydney), followed by four days in and around Sydney. We will then fly north to the Sunshine Coast to visit Brisbane. Finally, we will visit Noosa Heads for a huge, international, three day jazz and blues festival.

Once again World Projects, Inc., will organize the tour. They have put together many successful and truly unforgettable Natural Gas Jazz Band international concert/sight-seeing excursions over past years.

Please note that our itinerary is flexible - additional impromptu performances may be added to the published playing schedule if facilities, time, and group desire indicate it. Current itinerary is subject to revision.
